Patents

Patents 1 - 10 on **client server monitor OR measure performance**. (0.29 seconds)

Client/server distribution of

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

performance monitoring data

US Pat. 5905868 - Filed Jul 22, 1997 - NCR Corporation

1 is a block diagram that illustrates the **Client/Server** architecture (also known ... Overview A user that needs to **monitor** the **performance** of a particular ...

Method and apparatus for measuring the performance of a network based ...

US Pat. 6446028 - Filed Nov 25, 1998 - Keynote Systems, Inc.

The **performance monitor** machine determines **client-server** transaction times using the times of network packets that are detected. The **performance monitor** ...

Apparatus and method for managing a server workload according to client ...

US Pat. 5537542 - Filed Apr 4, 1994 - International Business Machines Corporation

PERFORMANCE INDEX DELTA The **performance** index value for a **client performance** goal class is the **measure** of how well that goal class is meeting its specified ...

Terminal server simulated client performance measurement tool

US Pat. 6567767 - Filed Sep 19, 2000 - Unisys Corporation

30 The **monitor** station (16m) captures all the **performance monitor** data concerning the test **server** (18) and stores the associated logs. ...

Method and apparatus for controlling the number of servers in a client ...

US Pat. 5974462 - Filed Mar 28, 1997 - International Business Machines Corporation

In accordance with the invention, a **performance measure** is defined for the first ... 1A shows the flow of a **client** work request from the network to a **server** ...

Client-side performance optimization system for streamed applications

US Pat. 6959320 - Filed May 15, 2001 - Endeavors Technology, Inc.

The **monitor's** algorithm for prioritizing **server** lists is dominated by the **server's** response time for each **client** request. If any servers fail, the **monitor** ...

Method, system, and product for assessing a server application performance ...

US Pat. 5812780 - Filed May 24, 1996 - Microsoft Corporation

Present State of the Art Over the last two decades, **client-server** computing ... **measure** of **server performance**. Having such high quality data is desirable ...

Systems for monitoring and improving performance on the world wide web

US Pat. 6438592 - Filed Feb 25, 1998

The present invention relates to a system for providing **client-server** ... Often the **performance** monitoring instructions instruct a **client** to **monitor** the ...

Application end-to-end response time measurement and decomposition

US Pat. 6108700 - Filed Aug 1, 1997 - International Business Machines Corporation

The Net View **Performance Monitor** (NPM) product allows measurement of total ETE RT in an MVS/VTAM ... ETE RT is just emerging in a **client/server** environment. ...
